

#### LOOPING THE LOOP.

Sydney Saturday.

Arrangements are being made for M. Maurice Guillaux, the French aviator, to give an exhibition in Melbourne in the course of the next few weeks.

M. Guillaux has already given several exhibitions in this State, and has performed the hazardous task of looping the loop. It is stated that the guarantee given him for making a flight in Melbourne runs into four figures. Final arrangements for the exhibition will not be made until a suitable ground has been obtained.
