

DARING AIRMAN GUILLAUX.

VISIT TO ALBURY CONTEMPLATED.

Guillaux, the famous French aviator, is contemplating giving an exhibition in Albury on Saturday, May 23. The fortunes of Guillaux in Australia have been followed with the greatest interest in Albury. When he landed in Sydney, and before the baggages containing his machine were unpacked, he stated that he had come to show Australians how safe being in the air really was. And Guillaux has been doing it. For he is no amateur has been clearly shown by his performances. His exhibitions have been wonderful. As a demonstrator of fancy flying, Guillaux stands alone. Evolutions which this daring man includes in his programme are looping the loop, side slipping, flying upside down, and flying perpendicularly.

By arrangement, Mr. Lionel C. Griffith met Mr. A. E. Sculthorpe, manager for Guillaux, as he was passing through Albury by the express last night. Mr. Griffith has the permission of the manager to say that a fly in Albury on Saturday, May 23, is contemplated.

If the great airman comes to Albury, arrangements will be probably made for him to give his thrilling exhibitions on the racecourse. It is to be hoped that the contemplated display will become an actuality. When Harry Hawker was here the people only got a taste of what aviation really means, and their appetite has been whetted.

Guillaux will fly in Wagon today.
