

MERCHANDISE BY AEROPLANE.

Mon^s. Guillaux, on his flight from Melbourne to Sydney, in addition to carrying the first aerial mail over such a long distance in the world, carried a parcel of merchandise consisting of O.T. and O.T. Co.'s Pure Lemon Squash consigned to the Commercial Travellers' Club, Sydney. This opens a new channel for commercial enterprise, and what the future will show with an Aerial Goods Service can only be conjectured.
