

CONTENTS

Section 1. Key map of New South Wales showing the position of all licensed Aerodromes and E.L.Gs. in the State. (Inside front cover.)

Section 2. Alphabetical list of all licensed aerodromes in the State showing :—

- (a) Registered Civil Number of the aerodrome ;
- (b) Latitude and longitude ;
- (c) Strip map, Australian Aeronautical Sheet and Air Chart on which the aerodrome is shown ;
- (d) Classification ; and
- (e) Remarks as to lighting, etc.

Section 3. List of Aerodromes and E.L.Gs. on air routes which are covered by strip maps. These lists will show :—

- (a) Distance of Landing Ground along the air route ;
- (b) Perpendicular distance of the Landing Ground from the route ;
- (c) Type ; whether Aerodrome or E.L.G.
- (d) Remarks.

As some air routes pass interstate, only that part of the route which is in the State concerned is shown in Section 3, but a note is inserted indicating that the whole route is not shown.

Section 4. Detailed information on Landing Grounds. This will show a diagram, a photograph and a locality sketch, together with useful data concerning the Landing Ground.

Section 5. List of Radio Stations in N.S.W.

Section 6. Reserved.

MISCELLANEOUS.

- (a) Conversion tables
 - (i) Nautical Miles to Statute Miles.
 - (ii) Metres to feet.
 - (iii) Conversion Factors.
- (b) Tables of Sunrise and Sunset.
