

# DE HAVILLAND INTRODUCES TO AUSTRALIA

# RALLYE

MORANE-SAULNIER

## WORLD'S SAFEST AND STRONGEST, ALL-METAL LIGHT AIRCRAFT WHICH EVERYONE CAN BUY AND FLY

The Rallye is the product of 50 years' manufacturing experience by one of the world's most renowned aviation organisations — Morane-Saulnier of France. Every Rallye is backed by the full after sales service and spares facilities of de Havilland — largest aircraft specialists in Australia for 34 years. Combining the advantages of low wing design with robust all-metal construction and a really rugged tricycle undercarriage, the Rallye is today's aircraft for private and club flying in Australia.

### Low initial cost — amazing operating economy

- Price — only £3,950 (fly away Bankstown with Australian Certificate of Airworthiness).
- 100 H.P. American "Continental" engine offers proven reliability with unmatched economy — more than 19 miles per gallon; total operating cost of less than 6½d. per mile.
- Speedy travel in sound-proofed, air-conditioned comfort for 3 people.
- Dual control with generous instrumentation.
- Leading edge slats provide unequalled in-flight safety.

## DE HAVILLAND AIRCRAFT PTY. LTD.

*(Member Company of the Hawker Siddeley Group)*

MILPERRA ROAD, BANKSTOWN, N.S.W.      UU 0111

### Aviation experts agree on Rallye's safety:

- JOHN FRICKER: "THE AEROPLANE"  
"The Rallye has an unusual degree of safety. It took the most brutal use of all the controls with complete equanimity."
- PIERRE BONNEAU: "AVIASPORT"  
"... a degree of safety I have never seen before."
- JAMES HAY STEVENS: "AIRCRAFT"  
"Stability is quite extraordinary. The Rallye is the one I would choose from among the 3/4 seaters available today."

### Compact — yet packed with all the features you want

Wing span.....	31 ft. 4 ins.	Cruising speed.....	115 m.p.h.
Overall length.....	22 ft. 7 ins.	Rate of climb (sea level)	
Height.....	8 ft. 10 ins.		590 f.p.m.
Gross weight.....	1708 lbs.	Range — A.U.W.....	500 s.m.
Useful load.....	705 lbs.	Take-off run.....	590 ft.
Cabin width.....	46 ins.	Landing run.....	295 ft.
Cabin length.....	63 ins.	Stall speed.....	44 m.p.h.
Maximum speed.....	128 m.p.h.	Service ceiling.....	11,500 ft.
